📍 Grand Villas, Loma de Gato, Marilao Bulacan

BIRTHDAY: January 15, 2004

GENDER: MALE

NATIONALITY: FILIPINO

## PROFILE SUMMARY

I'm John Renz Bandianon, an IT student with a strong interest in frontend web development and UI/UX Designer. I enjoy creating clean, responsive, and user-friendly interfaces, focusing on both functionality and visual design to deliver a good user experience.

I am currently strengthening my skills through academic projects such as my Capstone and individual builds, which help improve my problem-solving and development workflow. While my main focus is frontend development, I also have basic experience with backend concepts and am eager to learn more through hands-on experience as an IT intern.

## EDUCATION

### STI COLLEGE SAN JOSE DEL MONTE

2022 - Present

- Bachelor of Science in Information Technology

### PRENZA NATIONAL SENIOR HIGH SCHOOL

2020 - 2022

- ICT Vocational/Technical

## PROJECTS

My Website - <https://johnrenz-webportfolio.vercel.app/>

**Groove (Capstone Project)** <https://groove-vert.vercel.app/#/Johnrenz> A focused support system for performing artists in San Jose Del Monte, Bulacan. It supports finding coaches, smart chat responses, a studio locator, and community sharing.

**EduGuide** <https://edu-guide-three.vercel.app/> An online platform that helps students explore academic strands and college courses. Focused on accessibility, guided decision-making, and intuitive navigation.

**DinoVerse** <https://dinoverse-buce.vercel.app/> - A personal frontend project with polished UI/UX showcasing landing pages, guest access, and basic dinosaur content.
