Live projects: tpclientportal.vercel.app | grooveph.vercel.app

EDUCATION

Bachelor of Science in Information Technology (BSIT) Aug 2022 – Jul 2026
STI College San Jose del Monte, Bulacan, Philippines

- General Weighted Average (GWA): 2.15
- Relevant coursework: Application Development & Design, Systems Analysis, Relational Database Frameworks, Advanced Programming, Object-Oriented Programming, Information Security

PROFESSIONAL AND ACADEMIC EXPERIENCE

Full-Stack Developer & Capstone Team Lead – Groove (Academic Capstone Project) Mar 2025 – Nov 2025
STI College San Jose del Monte, Bulacan, PH | Live project: grooveph.vercel.app

- Led a 3-person team in building a full-stack appointment and user-management platform, following Agile, Git, and ISO/IEC 25010:2014 guidelines.
- Built REST APIs, role-based access control (RBAC), Google Maps API integration, appointment scheduling, and an AI chat assistant, based on requirements gathered from 152 survey participants.
- Owned the SQL database and schema design; wrote unit tests, led debugging and QA, and maintained technical documentation.

Technologies: React, PHP/Laravel (MVC), MySQL, Google Maps API, Git

Website UI/UX Designer – Required School Internship (OJT) Mar 2026 – Jun 2026
Alpha Centauri Garments (Apparel Brand), Quezon Avenue, PH

- Designed responsive e-commerce and marketing interfaces in Figma and worked with front-end developers to build them in HTML/CSS.
- Coordinated task tracking and testing cycles using Git, Notion, and ClickUp; maintained design specifications and documentation.

Technologies: Figma, HTML/CSS, Git, Notion, ClickUp

QA & UI Support Intern (Volunteer) Apr 2026 – Jun 2026
BoxHive Digital Solutions (Digital Tech Agency), Quezon Avenue, PH

- Executed test cases and performed manual debugging and layout/functional checks on HTML/CSS/JavaScript web UIs, using ISO/IEC 25010:2014 as the quality standard.
- Documented usability and functional defects through bug tracking and verified fixes with developers before release.

Full-Stack Developer & Advisor Support Associate (ASA) Intern Jun 2026 – Jul 2026
Sun Life of Canada (Philippines), Inc. – Phoenix Palm Branch (Team Padua), Pasay City, PH

- Built and deployed the Team Padua Client Management Portal (live demo: tpclientportal.vercel.app).
- Designed REST APIs and SQL queries; implemented authentication, role-based access control (RBAC) for Admin, Advisor, and Intern users, and real-time data synchronization.
- Developed client servicing, task management, attendance, birthday greeting, CPST, analytics, and internal messaging features across the front end and back end.
- Worked with advisors and admin staff from requirements through deployment; handled unit testing, debugging, and code reviews using Git/GitHub.

Technologies: HTML/CSS/JavaScript, Next.js, React, TypeScript, Tailwind CSS, Supabase/PostgreSQL, Git/GitHub, Vercel

SELECTED PROJECTS

REEFER Clothing – E-Commerce UX Ecosystem Mar – May 2026
Personal / academic design project

- Created Figma wireframes, user flows, and a responsive component library for desktop and mobile.

Icebreaker Mobile App – UI/UX Replica May 2026
Personal / academic design project

- Produced Figma wireframes, interactive prototypes, multi-screen navigation flows, and UI state management.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, PHP, SQL, HTML, CSS

Frameworks & Libraries: React, Next.js, Laravel (MVC), Tailwind CSS

Backend & Databases: REST API Design & Integration, Authentication, Role-Based Access Control (RBAC), Supabase, PostgreSQL, MySQL, Database Schema Design

Testing & QA: Manual Testing, Unit Testing, Debugging, Defect Reporting, Bug Tracking

Tools & Practices: Git/GitHub, Vercel, Agile, Figma, Notion, ClickUp, Canva, Photoshop

Core Competencies: REST APIs, TypeScript, SQL Query Language, UX, Web Applications

Soft Skills: Cross-Functional Collaboration, Problem-Solving, Time Management, Adaptability, Communication, Teamwork, Willingness to Learn

CERTIFICATIONS AND COURSES

- **Java Foundations** (Jun 2023) – Core Java, OOP, Basic Programming
- **SAP Business One System** (Mar 2024) – ERP, Business Operations, Inventory Management
- **Accenture Skills Training** (Nov 2025) – Technology Fundamentals, Innovation, Digital Skills, Professional Communication, Interviewing & Job Readiness
- **Google UX Designer** (May 2026) – User Research, Wireframing, Prototyping, Usability Testing, Figma

VOLUNTEER WORK, EVENTS, AND COMMUNITY INVOLVEMENT

- **Participant**, Academic Week IT/CpE Seminar, STI College San Jose del Monte (2024)
- **Project Exhibitor**, PSYSC STEMEX National Science & Technology Exhibition, UP Diliman (May 2026)
- **Participant**, OpenAI/Codex Tech Meetup, Taguig (May 2026)
- **Volunteer**, DEVCON Manila – Camp Run: Go Agentic with Hermes Agent / Hermes Agentic AI Hackathon (DEVCON Manila, Avtica, Amihan), Makati, PH (Oct 2, 2026)
  - Supported presentation and technical/AV operations, including slide QA, internet/AV readiness, and Hermes Agent demo setup.
  - Tested and validated Hermes Agent workflows before and during the overnight hackathon to help identify issues and support technical readiness.
- **Tech Volunteer**, DEVCON Manila – CORE-AI: Beyond the Skills, a technical seminar-workshop by Letran Information Technology Society (Official) in partnership with DEVCON Manila Chapter, Colegio de San Juan de Letran, Intramuros, Manila (Oct 29, 2026)

INTERESTS

- **Full-stack web development:** building complete, deployable applications from database to user interface
- **Software testing and quality assurance:** finding defects early and improving reliability through structured testing
- **UI/UX design:** creating clear, user-centered interfaces and prototypes in Figma
- **Agentic AI tools:** exploring AI agents and workflows through hackathons, meetups, and hands-on testing
