ACADEMIC BACKGROUND

Bachelor of Science in Information Technology (BSIT) STI College San Jose Del Monte Bulacan, Philippines	Aug 2022 – Present
Relevant Coursework: Application Development & Design, Systems Analysis, Relational Database Frameworks, Advanced Programming, OOP, Information Security, Practical Technical Project Management.	
TVL Track – Information & Communications Technology (ICT) Prenza National Senior High School Bulacan, Philippines	Aug 2020 – July 2022

EMPLOYMENT & INTERNSHIP HISTORY

Advisor Support Associate (ASA) Intern Sun Life of Canada (Philippines), Inc. Phoenix Palm Branch (Team Padua) <i>Role: Full-Stack Developer & Advisor Operations Support</i>	July 2026 – Present
- Designed, developed, and deployed the Team Padua Client Management Portal, an enterprise-grade advisor servicing platform built with Next.js, React, TypeScript, Tailwind CSS, Supabase (PostgreSQL), and Vercel. - Engineered secure authentication, role-based access control (Admin, Advisor, Intern), and real-time database synchronization across the platform. - Developed modules including Client Servicing Monitoring, Advisor Task Management, Attendance Monitoring, Birthday Greetings Automation, Client Prospect Servicing Tracker (CPST), Analytics Dashboard, and an Internal Messaging System. - Designed responsive UI/UX focused on advisor productivity, accessibility, and operational efficiency, automating manual tracking processes with centralized dashboards and reporting. - Collaborated directly with Team Padua advisors to analyze business processes, gather requirements, and continuously improve the platform. Key Achievement: Developed and deployed a production-ready internal advisor management system currently supporting Team Padua's operational workflow at Sun Life Phoenix Palm Branch.	

UI/UX & Graphic Design Team Lead Intern Alpha Centauri Garments (Apparel Brand) Quezon Avenue, Philippines	Mar 2026 – June 2026
- Designed end-to-end UI/UX architecture for a primary apparel e-commerce web platform in Figma, incorporating fluid typography, auto-layout design systems, and fully interactive workflows. - Coordinated a cross-functional team of designers and front-end developers, managing task delegation, rapid prototyping pipelines, and implementation tracking using Notion and ClickUp. - Optimized design-to-development handoff by delivering clean Figma component hierarchies, reducing engineering rework and ensuring exact UI-to-code fidelity.	

Graphic & UI/UX Design & QA Intern (Volunteer) BoxHive Digital Solutions (Digital Tech Agency) Quezon Avenue, Philippines	Apr 2026 – June 2026
- Engineered wireframes, layout patterns, and high-fidelity mockups for digital web systems and Android application packages, optimizing visual hierarchy and user navigation. - Architected the end-to-end UI concept for the Replica Icebreaker App, mapping micro-interactions, view transitions, and layout assets within a persistent component system. - Maintained rigorous QA workflows for staging applications, managing bug detection, visual regression tracking, and layout verification before production pushes.	

Full-Stack Developer & Capstone Lead (Academic Capstone Project) STI College San Jose del Monte, Philippines	Mar 2025 – Nov 2025
- Engineered wireframes, layout patterns, and high-fidelity mockups for digital web systems and Android application packages, optimizing visual hierarchy and user navigation. - Architected the end-to-end UI concept for the Replica Icebreaker App, mapping micro-interactions, view transitions, and layout assets within a persistent component system. - Maintained rigorous QA workflows for staging applications, managing bug detection, visual regression tracking, and layout verification before production pushes.	

PROJECTS & SOFTWARE ARCHITECTURE

Team Padua Client Management Portal (Lead Full-Stack Developer · July 2026 – Present) Live Demo: https://tpclientportal.vercel.app/	
- Designed and deployed an enterprise-grade advisor operations platform for Sun Life Phoenix Palm Branch that centralizes client servicing, attendance, task management, internal communication, and reporting into a single web application, replacing multiple manual tracking processes. - Key Features: Client Servicing Monitoring, Advisor Task Management, Attendance Management, Birthday Greeting Automation, Client Prospect Servicing Tracker (CPST), Real-time Dashboard Analytics, Internal Messaging System, Role-Based Access Control, Responsive Dashboard UI, Supabase Authentication, and Cloud Deployment via Vercel. - Technology Stack: Next.js (App Router), React, TypeScript, Tailwind CSS, Supabase, PostgreSQL, Git, GitHub, Vercel.	
Icebreaker Mobile App – UI/UX Replica & Interaction Design (May 2026)	
Developed a high-fidelity Figma replica of a mobile application — progressing from low-fidelity wireframes to interactive prototypes — designing core user flows, navigation structure, UI states, and screen transitions to simulate real-world usability behavior across multiple device resolutions.	
REEFER Clothing – E-Commerce UX Ecosystem (UI/UX Design · Mar 2026 – May 2026)	
Led end-to-end UI/UX design of a full e-commerce platform, delivering wireframes, user flows, high-fidelity interfaces, and a scalable Figma design system with reusable components, responsive layouts, and consistent brand identity across all customer journey touchpoints.	
Groove – Performing Arts Ecosystem Platform (Capstone Lead · Mar 2025 – Nov 2025)	
Designed and deployed a multi-role full-stack platform for artists, studio owners, and coaches following Agile practices and ISO/IEC 25010:2014 standards, informed by 152-participant research, integrating Google Maps API, role-based access control, and an AI-powered chat assistant.	

Soft Skills

Team Leadership, Cross-functional Collaboration, Problem-solving, Critical Thinking, Time Management, Adaptability

TECHNICAL SKILLS

Frontend & Languages:	JavaScript (ES6+), TypeScript, PHP, Java, C#, Python
Frameworks & Libraries:	React, Next.js, Laravel (MVC), Vite.js, Node.js, Express.js, Bootstrap, Tailwind CSS, Supabase, Authentication, Row Level Security (RLS)
Databases & Cloud:	MySQL, PostgreSQL, Prisma ORM, XAMPP, Hostinger, REST API Integration, System Architecture & Database Schema Design, Vercel Deployment
Backend:	REST APIs, Server Components, Server-Side Rendering (SSR), CRUD Operations, Database Design
UI/UX & Design Tools:	Figma, Adobe Photoshop, Adobe Illustrator, Canva, Webflow, Wix, Behance, Dribbble
Version Control & DevOps:	Git and GitHub for code management, collaboration, and deployment
Project Management Tools:	Notion, ClickUp, Trello, Jira, and Monday.com for Agile workflows, sprint planning, Kanban boards, and team collaboration
Quality Assurance:	Bug Checking, Design Review, Testing Environment, and Layout Inspection Based on ISO/IEC 25010:2014

COMMUNITY ENGAGEMENT & INDUSTRY EVENTS

PSYSC STEMEX — National Science & Technology Exhibition	May 2026
University of the Philippines Diliman · Project Exhibitor	
Represented and defended software engineering innovations at a national-level STEM exhibition hosted at UP Diliman. Presented real-world software solutions addressing technical literacy gaps and community-facing applications in front of an academic and industry judging panel.	
OpenAI / Codex Tech Meetup	May 2026
Bonifacio Global City, Taguig, Manila · Participant	
Participated in live technical deep-dives on generative engineering models, AI-augmented developer workflows, optimised code synthesis parameters, and the emerging landscape of AI-assisted software engineering. Engaged directly with practitioners applying large language models to production development pipelines.	
Academic Week IT/CpE Seminar	2024
STI College San Jose Del Monte · Participant	
Attended a focused GitHub-centric seminar on collaborative software development practices, version control workflows, repository management, and team-based coding standards for academic and industry settings.	

COURSES & CERTIFICATES

Google UX Designer (User Research, Wireframing, Prototyping, Usability Testing, Figma)	May 2026
Accenture Skills Training (Technology Fundamentals, Innovation, Digital Skills, Professional Communication, Interviewing & Job Readiness Practice)	Nov 2025
Sap Business One System (ERP System, Business Operations, Inventory Management)	March 2024
Administrator and Maintenance (System Administration, Troubleshooting, Maintenance)	June 2023
Java Foundations (Core Java, OOP, Basic Programming Concepts)	June 2023
